An important fuel depot of the Petrol State Administration is located at the northern exit from Plovdiv along the road to Karlovo (N 42-37, E 24-49, now Levski-grad), immediately north of the Plovdiv-Stara Zagora rail line and west of the first-class road to Karlovo (road No. 32). The depot consists of four or five buildings. Several reservoirs constructed at ground level and covered with earth, as well as a very large number of fuel drums, are visible.
